

No Contracts, No Limitations,  
Zero Fees, \$150 a Month

**PAINT IT BLACK**

# Our Vision

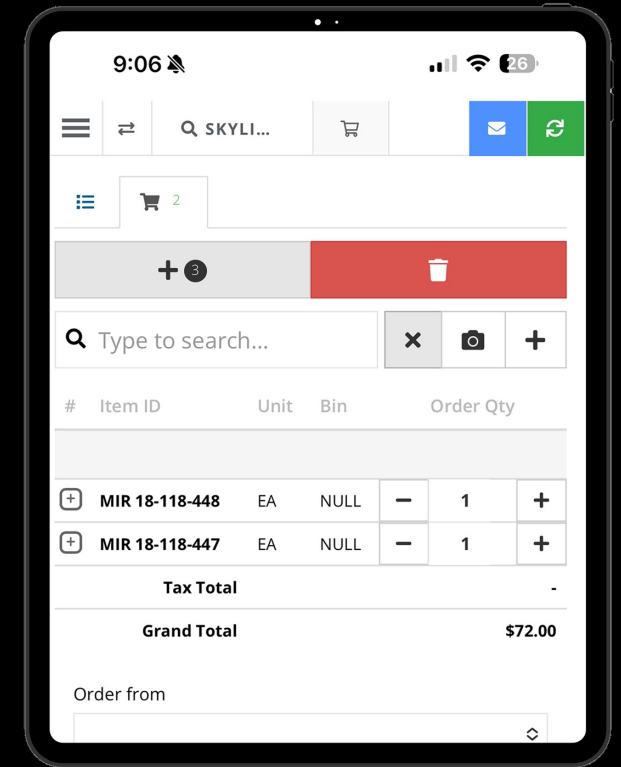

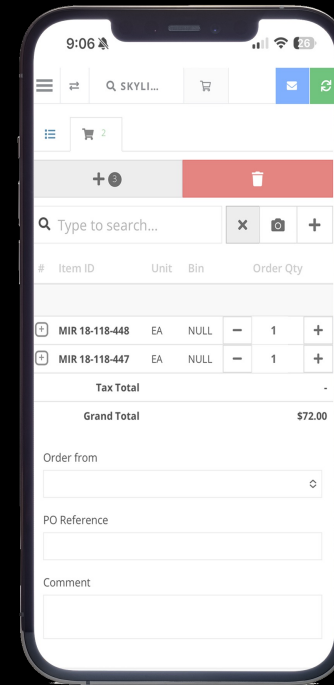

**Tim.tools** was created to give every shop better control, awareness, and the understanding of the materials they purchase to obtain their Material Gross Profit. Tim is not just “inventory control” — it gives the shop the ability to make money.

We also wanted the shop to have secured purchasing data and history that belongs to them. Tim Shops OWN their data exclusively.

- 1) Tim strives to have a simple, updated, and easy-to-use web-based program that every shop and distributor can utilize daily to help many aspects of their business.
- 2) We created login security and multiple access levels for the Shop and Suppliers to secure the data; Tim does not share pricing, purchasing, or any private information to any manufacturer or distributor.
- 3) Tim has no contracts, no minimum purchases by a specific manufacturer, no limits to items in inventory, and no penalties for using multiple manufacturers.

# Web Ordering

Send web-based orders to purchase all of the shop's liquids, dry goods, detail supplies, and equipment needed to complete every repair job in the shop.

1) Phone

2) Tablet

3) Computer

# 3rd Party Invoices

- 1) Non-Included items are checked out or assigned to Repair Orders (Estimator or Body Tech)
- 2) Recovery Kits can be created for frequently used repair procedures
- 3) Miscellaneous Items can be added for recovery
- 4) All Items added have a proof of purchase, No Insurance Fraud!

# Tim Scoreboard

Utilize the Tim Scoreboard to follow purchase and usage information in one place:

- Material Purchases
- Material Usage by Tech
- Materials Sold / Recovered

# Material Gross Profit

Maintain gross profit \$ by ordering, assigning, and tracking all the materials in the shop

Use Tim to keep the shop out of the “red” and in the “BLACK”

# Organized and Labeled

Organization is important, every item the shops uses should have a dedicated spot in the material inventory area.

Each item should be barcoded and clearly labeled with a description with the minimum Quantity to keep on the shelf.

Tim can support any organization method that the shop is currently using. Cabinets, Shelves, Bins, Bakers Racks, or a combination of these.

Tim also has an extensive install check off list in our Knowledge Base, and we can help shops make purchasing decisions for what is needed.

1. Windows All-in-One PC
2. Wireless Barcode Scanner
3. Dymo 550 LabelWriter Printer
4. Dymo Genuine Labels
5. Power Strip / Surge Protector

**PLEASE NOTE: TIM requires Internet and Power to run**

- If a reliable Wi-Fi connection is not available at the Stock PC location, you may need a bridge/switch for a LAN drop and CAT 5 cable, Seek the assistance of onsite IT support.
- The DYMO Label Writer Series 550 (Recommended) or 450 (if available) is the only label printer brand and models that are supported by TIM, and both models require Genuine Dymo Labels.
