OUR VISION

Tim.tools was created to give every shop better control, awareness, and understanding of the materials they purchase and their material gross Profit. Tim is not just inventory control—it gives the shop the ability to make money.

We also wanted the shop to have secured purchasing data and history that belongs to them. Tim Shops OWN their data exclusively.

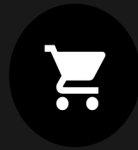

01 We strive to have a simple, updated, and easy-to-use web-based program that every shop and distributor can utilize daily to help many aspects of their business.

02 We created login security and multiple access levels for the shop to secure their data; Tim does not share pricing or purchasing information to any manufacturer or distributor.

03 We have no contracts, no minimum purchases by a specific manufacturer, no limits to items in inventory, and no penalties for using multiple manufacturers.

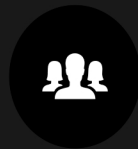

TIM ADVANTAGES

Order, assign, track, and maintain all materials and equipment from any manufacturer or distributor in the collision, commercial, industrial, marine, or aviation Industry

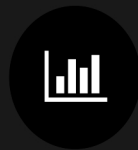

WEB ORDER MATERIALS

Send web orders to purchase all liquids, dry goods, detail supplies, and equipment needed to complete every job in the shop

ASSIGN MATERIALS

Checkout by technician, or directly assign, used materials to all repair orders or jobs to create 3rd-party invoices with **proof of purchase**.

TRACK MATERIALS

Utilize the scoreboard to track information in one place: material purchases, material usage by tech, and materials sold.

MAINTAIN MATERIAL GROSS PROFIT

Maintain gross profit by ordering, assigning, and tracking all the materials in the shop. Use Tim to keep the shop out of the "red" and in the "black."

ORGANIZE AND CLEARLY LABEL SHOP MATERIALS INVENTORY USING ANY CABINET, SHELF, WALL CABINET, BINS, OR POINT OF USE CART THAT THE SHOP ALREADY HAS. NO PURCHASE OF CABINETS NECESSARY.

We have a detailed install guide for shops that need recommendations.
